

BOROUGH OF SEA GIRT

SEA GIRT, NEW JERSEY

WATER METER INFORMATION

Following are the Sea Girt Borough Water Department guidelines for the issuing of water meters.

1. If you have a 3/4" water tap, you will be issued a 5/8" meter.
2. If you have a 1" water tap, you will be issued a 3/4" meter.
3. If you have a 1.5" or 2" water meter, you will be issued a 1" meter.

The above guidelines have taken the volume of water needed daily into consideration. If you believe you need a larger meter the Water Department will review on a case by case basis.

Water meters are issued without any electronics. After the water meter is set you must contact the Sea Girt Borough Water Department to schedule an appointment to have the meter reading electronics installed. A Certificate of Occupancy will not be issued until the reading electronics are installed.

If you have any questions please contact the Sea Girt Borough Water Department at 732 449 6463.
